

KIDVENTOR

Looking for a fun way to get your students excited about STEM?

We're challenging all kids ages 6 to 13 to invent the next great Fat Brain Toy! One lucky inventor will win...

- ✿ A \$2,500 advance in the form of a scholarship.
- ✿ \$500 in toys from Fat Brain Toys.
- ✿ Round-trip airfare and hotel accommodations for two for a trip to New York City for the American International Toy Fair in February 2022.
- ✿ A license agreement with Fat Brain Toy Co. which includes a royalty rate competitive with the industry standard.

Kids have until September 19th to come up with the ultimate toy idea. Go to www.fatbraintoy.com/kidventor and click on the Educators tab to find a pre-made lesson plan and then send your students to www.fatbraintoy.com/kidventor to submit their ideas!
